Tactical Rescue Gloves

Goatskin, full Kevlar® lining

- Intended for the rigorous abuse that a hoist operator's glove endures while controlling a hoist cable during rescue operations from military or civil helicopters.
- Also intended for fire rescue operations done by fire brigade personnel.
- Premium grade black goatskin palm and fingers.
- Kevlar® lining in palm and fingers as well as additional layers in the critical areas provide protection against extreme abrasion, extreme heat and potential sharp objects.
- High visibility yellow, elastic neoprene back (black neoprene back is optional).
- Very comfortable and fitted.
