

MIG Safety Shoe

Art nr: 1000077

Previous art. nr: 10073601

 Unisex

Monitor Mig is an athletic style protective shoe that not only looks like a sports shoe but features a fit and comfort to match. The shoe is powered by the BOA® Fit System for micro-adjustable, precision fit. The upper is made from hard-wearing Ripstop material with TPU reinforcement on the sides, and stronger TPU protection on the toe to further strengthen the shoe. The outsole is Monitor's new SIGMA sole, which is a new version of the now classic Alpha sole. SIGMA has a rubber outsole with a tread pattern that provides excellent grip on slippery surfaces. The midsole contains cushioning EVA with a strong torsion fork for even greater stability. The generous toecap is made of aluminium. The shoe also features Monitor's SS2.0 insole.
