

## Product Presentation

### Box 12 Units

- **Content:** 12 bag with 1 unit
- **Dimensions:** 140 x 210 x 65 mm

### Pack 240 Units

- **Content:** 20 boxes with 12 units
- **Dimensions:** 415 x 335 x 345 mm

### Labelling

- Name and address of the manufacturing company
- Product designation in several languages
- Commercial reference, Lot and barcode
- CE marking
- Number of units
- Single use
- Storage conditions
- Colour

## General characteristics

**Description:** Visitor's gown made of polyethylene, with collar and snap buttons fastening on the front, in white. Lightweight, economical and dirt-resistant material. Does not lose fibres. Without pockets. Waterproof.

Manufactured in accordance with the requirements of the Personal Protection Regulation (EU) 2016/425.

The material of construction, polyethylene, allows good resistance to liquid penetration. One size fits all, measurements:

Length: 150 cm

Width: 125 cm

Thickness: 18 microns.

Protection against dust and dirt in laboratories, Factory visits. Protection against non-hazardous splashes.

## Classification:

Protective product Category I; Regulation (EU) 2016/425.

## Physical Properties

**Composition:** Polyethylene (PE)

### Characteristics:

- Latex Free
- Free of Proteins and chemical accelerators
- Free of Dust

## Sizes

**Sizes:** NA

## Uses and applications

Its use is mainly recommended for visits to factories or clean rooms, hospitals or the food industry. Suitable for infection control, food contact and domestic or work-related soiling. The wearer protects their clothing.

They can also be very useful for artists and painters looking for a more plasticised material, for possible spillage of liquid products such as paint or in situations where temporary protection is required to act as a protective barrier against splashes, such as in the research and veterinary field.

## Storage Conditions

Keep stored in a cool, dry place. Avoid excessive heat and protect from direct sun exposure or fluorescent lighting, as well as proximity to high frequency equipment.
