 Women

Monitor Silver is a product in Monitor's venture focusing on the perfect women's shoe – the MoniShe shoe series. The fit – with distinctive Q-last – has been further refined since Monitor's Ladyseries. The upper is made of microfibre and textile. The sole system is brand new and has been designed for the MoniShe series, where the midsole is made from M-rebound recover (M-RR) – an extremely light, durable and cushioning material. The outsole is made from non-slip rubber with SRC properties. The penetration resistance is in Monitor's new Pantzar APT, which is incredibly light, flexible and safe. The toecap is wide and made of aluminium. The insole is Monitor's SS2.0 sole.
