To make it easy for you, at Franz Mensch you will find not only the real glove sizes but also the international sizes (XS to XXL). Your hand circumference determines your glove size. Especially with disposable gloves, it is important that the size is correct and that the glove fits snugly on the hand - like a second skin. This is the only way it offers full freedom of movement and sensitivity.

In addition, all Franz Mensch glove boxes are marked with these color dots. This way you can quickly find the right size.
