Dimensions and sizes

This guide summarises the most important information on sizes and measurements. So you can quickly measure your glove size or convert ml to oz.

Size charts

order size	5	6	7	8	9	10	11	12
size	XXS	XS	S	M	L	XL	XXL	XXXL
hand circumference (cm)	15	17	19	21	23	25	27	29

Glove sizes

To make things easy for you, at Franz Mensch you will find not only the real glove sizes but also the international sizes (XS to XXL.) Your hand circumference determines your glove size. Especially with disposable gloves, it is important that the size is correct and that the glove fits closely to the hand - like a second skin. Only then does it offer full freedom of movement and sensitivity.

In addition, all Franz Mensch glove boxes are marked with these color dots. So you can quickly find the right size.
